MAINTENANCE

Initial care & re-oiling	<ul style="list-style-type: none"> Do not clean the floor with water in the first two weeks after installation We recommend a final coat of oil after installation. Re-oil every 2-5 years depending on the volume of traffic. High usage areas may need to be re-oiled annually Use Osmo Polyx Hardwax oil clear satin for re-oiling
General cleaning	Use Osmo Wash & Care soap for regular cleaning and Osmo Liquid Wax Cleaner once or twice a year
Intensive clean	Prior to re-oiling wash the floor with Woca Wood Cleaner and leave to dry for 4 hours

INSTALLATION METHODS

Fixed installation	Highly recommended, either fully bonded or secret nailed
Floating installation	Possible depending on room size
Over underfloor heating	This floor is not compatible with UFH

WARRANTY AND INSTALLATION

Manufacturer's warranty: 5 years, subject to terms and conditions. Note there is no warranty on the finish as we have no control over usage and aftercare. All our floors must be installed by a competent installer onto a firm, level (flat), clean and dry substrate. The site must be heated if necessary and water tight with all glazing fitted. Wet works such as plastering and tiling must be completed prior to installation.
